To whom it may concern,

April 25, 2011

Burbach Aquatic's was the consulting firm that designed the renovation of the Bettendorf Parks and Recreation Departments Splash Landing Family Aquatic Center several years ago. We were very satisfied with the end product, and I felt that their staff did a great job with the design, and the construction observation and contract administration for the project. Their staff was knowledgeable and professional.

Burbach's proprietary features such as reverse flow pool circulation, zonal control, and features like the strong contractor observation (Phase III), and three prime contract for contractor participation, were all strengths they brought to the project.

I would be comfortable in recommending Burbach for future work for our agency, and suggest that anyone looking for a qualified aquatic consultant, give them strong consideration.

Sincerely,

A handwritten signature in black ink, appearing to read "Steven M. Grimes".

Steven M. Grimes

Director of Parks and Recreation.
