

April 21, 2011

To whom it may concern,

The City of Cedar Rapids Parks & Recreation Department chose Burbach Aquatics LLC for architectural and engineering services after completing the competitive selection process. The firm was hired to provide services through construction of two (2) swimming pools, two (2) Aquatic Centers, and an addition of a water slide/plunge pool at an existing swimming pool.

Throughout the five year process, Burbach staff was knowledgeable and professional. Burbach pools are built to last and 10 years after the opening of the first of our five (5) pools, the basins are still sound with no leakage. Overall, the pools are functioning as well as the day they opened.

Sincerely,

A handwritten signature in cursive script that reads "Julie Sina".
